Installation of Leibniz System:

****
1. It is assumed that you have downloaded from

   http://www.utdallas.edu/~klaus/Leibnizprogram/leibnizmain.html

   the file leibniz.complete.zip.

2. Define a new directory called 'Leibniz' in your home directory.

3. Copy the file leibniz.complete.zip into the Leibniz directory.

4. Execute in the Leibniz directory

      unzip leibniz.complete.zip

   followed by

      make -f makefile.install

5. Go into Leibniz/Manual and open leibnizmanual.pdf.
   Read Preface, Chapter 1, and Chapter 2. For a first use of the
   various modules and programs, follow the instructions in Chapter 2.
